Press Announcement of KCRC's Vaccination Incentive Scheme

In support of the Government's initiative to encourage mass vaccination against COVID-19, the Kowloon-Canton Railway Corporation (the Corporation) today announced that the Corporation would follow the Government's arrangement and release staff to receive vaccination during duty hours and take one day of vaccination leave after every vaccination dose received from now until 31 August 2021. For staff who were vaccinated before 31 May 2021, they are granted one day of authorized absence for every vaccination dose received in recognition and appreciation of their support of the COVID-19 Vaccination Programme.

The Corporation reaffirms its support of the Government's mass vaccination programme and its commitment to fostering a safe working environment for its staff and business partners. "The economic recovery of Hong Kong is in sight and a high vaccination rate would contribute to the revival of business activities and boost Hong Kong's economy", said the KCRC spokesman.

The Corporation takes the opportunity to appeal to the public to support the mass vaccination programme so that daily life can return to normal as soon as possible.
